HONGKONG, SATURDAY, DECEMBER 5, 1896. AN EXPLANATION.

With reference to our statement vesterday's Telegraph, when commenting on the previous day's proceedings in Council, that neither the Honourable C. P. CHATER nor Dr. Ho Kil, when discussing Mr. WHITEHEAD's letter on the Gap Rock Light Dues, had stated "that they had a little conversation with the Governor in his private office a few minutes before the ·Council met," Mr. CHATER Informs us that neither he nor Dr. Ho Kar had any interview with His Excellency the Governor before the meeting of the Council on Thursday last, nor, so far as Mr. CHATER is concerned, any communication with him on the subject of Mr. WHITEHEAD's letter; Mr. Charer was first on the ground. Dr. HoKarcame upafterwards and announced his intention of speaking on the subject, Mr. CHATER questioned the propriety of his so doing. Mr. BELILIOS joined in the discussion later on. The Colonial Secretary coming up was referred to by Dr. Ho Kin and he went in and obtained for Dr. Ho Kai, at the request of the Honourable Member, permission to address the

Council. Mr. CHATER desires us to state that up to the moment of the Governor's rising to lay the papers concerning the Gap Rock Light Dues on the table, he (Mr. CHATER) had no idea of what was going to be said or done, and that he was not acting in concert with His Excellency or with Dr. Ho KAI. Mr. CHATER does not in any way repudiate what he said in Council; he only desires to have it made abundantly clear that he was not acting in this particular matter in concert with any one, or in virtue of any pre-arranged

We regret that we should have been unwittingly led into making a statement not founded on fact, but we beg to assure Mr. CHATER that when we penned it we had every reason to believe that he and Dr. Ho Kar had had an interview with His Excellency just before the meeting of Council. His statement on the subject, however, is too clear and too categorical to leave any doubt on the subject.

company and the new line." An Australian Press despatch of the rath ulto. states that the Russian press is orging the establishment of a relief fund in Russia for the Hindoos suffering from the effects of the famine in India. Reuter, however, reported on the 1st instant that the Moscow Bourse Gazette "strongly protests against the Russian Government organizing relief for the famine in India." Awfully unkind is it not !

NEWS has been received that Captain Deaty, 16th Lancers, who started from Kashmir in April las to explore the sources of the Mekong, Irrawaddy and other rivers, has been obliged to return to Leh owing to difficulties of transport, Captain Welby, 18th Hassare, who left Kashmir with Captain Malcolm, of the Argyll and Sutherland Highlanders, about the same time, is reported to have reached Lanchell.

MR. N. Lazarus, the well-known optician, and principal of the firm of Lazarus & Co., of London, Calcutta and Melbourne, is at present in Hongkong, and these who are in any way troubled with defective vision would do well to consult him. In Australia, India and other parts of the world Mr. Lazarus's skill in remedy. ing eye-troubles is warmly recognised and immense numbers of serious cases have been successfully dealt with by him. His stay here is limited now to a few days, and we can recommend his system of visual tests and his corrective glasses as invaluable to any who have the misfortune to suffer from impaired sight.

THERE has been only a moderate business done in the share market during the rast week and, according to Mr. Erich Georg, only at rates which show but few changes. In reference to mining shares the same authority states Punjoms sold at \$11. \$13.10, and \$13 for ordinaries and \$3.90 and \$4 for reference shares, the market closing with a few cash shares offering at \$1; for ordi aries and \$4 for proferences, while Stoo is obtainable for the latter. The slightly weaker tone of the market is caused by the news that the cyanider (Mr. Quinn) has been taken ill, and has been compelled to go to Singapore for treatment. It is stated, however, that the engineer at the works (Mr. Jolly) is fully able to superintend the cyaniding operations for some time, until the recovery of Ouinn, or until another chemist can engaged, so that the work will go on as usual. THE NAW BALMORAL GOLD MINING CO., LD.

The second ordinary annual meeting of shareholders of the above Company was held at the registered offices of the Company, 38 and 40, Queen's Road Central, at noon to-day, for the purpose of receiving the report of the General Managers, logother with a statement of accounts for the period ending the 30th September, 1896. Mr. Hart Buck presided, and there were also present Messrs. E. K. Chandler, W. E. Clement, H. Ruttonfee, E. Georg, W. H. Potts, Machado, H. Humphreys, E. S. Kelly, Lau Shau, Sin Tack Fan, G. R. Stevens, C. Ewens, J. A.

The Chairman said-Gentlemen, the report

and accounts having been in your hands several days, I will, with your permission, take them as read. I may mention that these accounts are made up to the 30th of September last in Hongkong, a data previous to that on which our firm took over the general management of the Company, but I will, should anyone be desirous of saking any questions, do my best to explain any. thing you may wish to know. We regret to say that the working for the period under review has not been a success, and we are afraid that your late mining manager, who, we learn, has committed suicide while temporarily insane, was not | Hongkong Football Club will play 35th Comin a condition of health to give your interests | pany, R.A. Of course, Grayson, R.A., forwards. gentlemen, we have to a great extent to rely on the competency and honesty of our mining managers, and I am pleased to inform you that we have every confidence in our present staff. The results were as follow !-and we feel sure that they will watch your interests as closely as if they were their own. It is needless to say that we cannot work without money, and you have all probably noticed that an extraordinery general meeting will be beld on the 14th of this month to pass ference soures. · Our latest advices by letter from the mines are quite satisfactory and inform us that crushing from the Queen mine was about it would be carried on continuously for at least several months. I think that with the necessary working capital our enterprise is bound to succeed, should like to take this opportunity of referring to the proposed sale of your property together with that of our neighbours', the Olivers Freehold mines, to a London company. We hear from Mr. J. D. Humphreys, who has spent the greater part of this sammer at the mines, that he was not at all surprised that the London company did not buy, as when their expert arrived there was really very little for him to see, on the Balmaral property. Although every effort was made, it was impossible to get the mines in a sufficiently advanced state for inspection. Most of the work done before Mr. Willmott took charge was to all intents and purposes useless. It was not normanent work. That is, it was not the kind of work that was likely to make the mines permanently paying, and in fact was apparently done without any set purpose or any definite object in view, As regards the Olivers properties, the 100 acre freehold is practically unworked. and the old Eureka shaft having been abandoned as unsafe, the new shaft which was being sunk was naturally not sufficiently advanced to enable the expert to form any definite opinion as to the value of the property. Under these circumstances we cannot feel any surprise that the negotiations fell through, but from present appearances we are justified in thinking that the failure of the negotiations may eventually turn out to your advantage and can assure you that everything we can do to bring about this desired result will be done. shall be pleased to answer any questions in connection with the report and statement of

FOUND IN A WASTE-PAPER BASKET AND CAREFULLI STITCHED TOGETHER.

We have been favoured, in strict confidence, with the first draft of the speech addressed by His Excellency the Governor to the Honourable Members of the Legislative Council on Thursday last, It was prepared, we are assured, by the gental librettist of the A.D.C. from rough notes taken down at different times during the last month or so at His Excellency's dictation. It is not, of course, precisely the speech in the form in which it appears in our report of the Council meeting, but it is the raw material from which the speech actually delivered was elaborated first by the Private 'Secretary and afterwards, with very great labour by that master of language, the Colonial Secretary, and it is guaranteed to contain a far more accurate expression of His Excellency's opinions and feelings than that which was put into his mouth last Thursday afternoon. Its importance seems to us to fully justify its appearance in a conspicuous part of our columns. Here it is :-

Honograpie Gentlemen, Having put of the meeting of the Legisla ive Council to the latest date possible I am compelled, very much against my will, to call you together and go through the farce of asking your opinion and advice on matters about which I and my Colonial, Secretary know far more than you do, and which I have not the faintest intention of acting upon, even if I were at liberty to do so, which I am not. The annoyance of having to meet you is very much lessened by the knowledge that, as it is so near the end of the year, and as the Estimates must be passed forthwith, no time can be wasted in

useless debate I congratulate the Council, and myself, on the additions made to it. Majni-General Black is bound by his official position to be silent and vote with me in all things. M. Wei A Yuk will only speak and vote as the Registrar-General directs bim. He does not at all represent the Chinese He is half English, so we will have no nonsense from him. The addition of the two new members to the Executive Council is an excellent m ve. It neutralizes two of the unofficial members in this Council. We can always prevent them tolking by calling their attention to their oath of secrecy as to all that

comes to their knowledge in Ex cutive Council. To prevent all jurther fuss and feathers about the Military Contribution you have got to pass an Ordinance fixing it at 17% per cent, for ever, or until further orders from the Secretary of State. It will be quite useless your opposing it or attempting to improve it. Chamberlain has directed it to be passed. You were foolish enough to ask for a percentage charge without thinking of what you were doing, and now you Can't get out of it.

As it is so ate in the year you must pass the Estimates and the Appropriation Ordinance in one or two slitings at the most. There is no time for any useless tasking. I shany has drawn them upso cleverly that while the Revenue appears to be \$17000 less this year than last, the Military Contribution is \$30,000 more, and I am blessed if I think you can find out how it has been done, smart as some of you are at figures. There is an increase in the expenses for souds, They went it precious badly ; and there are so many bicyclists about that it is beginning to be

noticed. The Sanitary Department is a hideous expense and will cost much more next year. Like the P. W. D., the more men it has the less work it seems to do. It has spent \$70 000 in killing over 1,000 people out of 1,204 attacked by the plague, and we are not in a bit better position than we were in 1894, if it should come sgain next year. The Board is in the same hopeless muddle as it has been since the only intelligent members of i resigned None of the officials out here want an unofficial majority on it again. It was only a nulsance, and if you think that I intend to take any notice of your absurd plebiscitum you are most confoundly mistaken. Of course it made Chater and Beillios look foolish, but that is their

business, not mine. If you want any further information about the Estimates ask I ockbart in Finance Committee. Don't bither me. He will answer you or not, as he pleases.

The Finances are looking up. Johnny tells me the Land Sales realized already \$250,0 Othle year. Clever boy ; he has only put it in the Estimates as \$197,000 and he only estimates it for next year as \$100,000, so as to squeeze some more Military Contribution out of you and get his name up at home. But you can talk to him about that.

She has now consented, in reply to a special embassy from Seoul, that Korea shall be diplomatically represented at St. Petersburg. though with the King of Korea resident at the Deputies has approved of the adoption of the Russian Legation in Seoul, there does not seem much reason why he should appoint a Minister to the Russian capital when the Foreign Office there would do all his business for him free of expense. But it looks better, of course, especially from a Russian point of view. Mr. Wacher, the Russian Charge d' Affaires at Scoul, is a very clever man and has won the complete confidence of the Koreans-to much so, that the Korean Independent, a curious little bilingual sheet published in the capital, bails a rumour of Mr. Waeber's appointment to be Minister as " signal that Russia will maintain and strengthen the independent sovereignty of the nation "! Moreover, Russian "merchants" are beginning to be interested in Kores as well as Russian officials and military men, and the last mail brings news of a curious timber concession granted to a Pussian subject by the Korean Government, in which an undertaking is made by the concessionaire to deposit It of o roubles in the " " neso-Chinese Bank" as a guarantee. of good faith. From exchanges received this morning by the China Navigation Co.'s steamer Tsings (Capt.) G. Ramsay) from Sydney via ports we extract

the following items :-SYDNEY, November 6th. The Legislative Council has passed the final readings of the Coloured Races Restriction Bill after considerable debate. On the second reading several members objected to the bill, one describing it as cowardly and selfish, and another said it would prevent British surjects landing in the colony. The Council has made amendments providing that the Act shall not apply to minitters of religion, native missionaries, scientists or students, together with their wives, families or servants, and the Governor is given power to exempt any persons from the Act. The bill has

been returned to the Assembly. A man named Hepburn is now hanging at Coogee Aquarium for exhibition purposes. A strike amongst the Honsard reporters has been parrowly averted. The Session in Parliament was a particularly heavy one, and on its conclusion the Speaker consented to the Honsard staff being sent to the Federal Convention at Bathurst opening on November 16th. The reporters objected to this, more particularly as the Conference is a private undertaking and there were plenty of men who would be glad to get the work. The Hansard men at last declined to go to Bathurst, and the speaker decided to let the matter drop.

Burglaries are very rife at present. A few nights ago the house of Sir Astley Cooper was entered and robbed, a large amount of old family plate, jewellery, &c. being stolen.
